Education

University of California, San Diego

B.S Cognitive Science (HCI)
Minor: Computer Science
Expected Graduation: June 2020

Experience

Undergraduate Researcher
Feminist Labor Lab, April 2018 - Present

- Acting as UX consultant for proposing and prototyping survey designs for Turkopticon 2 transition
- Serving as student liason with Turkopticon moderators to broaden my research on reconfiguring crowdsourcing from Amazon's Mechanical Turk

Youth Advocate Intern
Safe Alternatives to Violent Environments, May 2014 - June 2016

- Held campus-wide presentations on high school campuses, tabling at farmer's markets
- Created a public service announcement and designed a billboard that was displayed on I-880 to helped bring awareness about teen dating violence

Projects

InfoPuppies
April 2018

- Developed the front-end UI for a website that serves as a block-chain equipped database for animal microchip data aggregation
- Performed user research and need-finding to understand the issue of microchips and decentralization of medical information

VR Universe
October 2017 - Present

- Conducted user testing on UCSD students and faculty to refine tutorial and search filter system's intuitiveness and usability
- Implemented and designed a tutorial system and category search filter system using Unity and Sketch

Education for Homeless Youth
October 2017 - Present

- Conducted research on the homelessness crisis in SD and served as student liason to find professionals for user interviews
- Created affinity diagrams and developed hi-fidelity wireframes for a survey website using Sketch
